Subject: Microsoft Company Settlement

Attorney General John Ashcroft
U.S. Department of Justice
950 Pennsylvania Ave, NW
Washington, D.C. 20530-0001

Attorney General John Ashcroft

The Microsoft Company has been in battle with its competitors in the marketplace and unfortunately with the federal government for too long. It is good news to the industry and to the nation's economy to know we are on the cusp of closure to at least the federal lawsuit.

During this open public comment period I want to take the opportunity to support your Department in the fine job that you have done to find the compromise and reasonable end to this long drawn out million dollar experience. Please consider the settlement sufficient and close the federal government's role in this competitive war. I support your settlement proposal.

Sincerely,

Terry R. Spencer
Utah State Senator
District 22
